## THE MAIN THING ABOUT PRODUCTION:

**SPECIALIZATION:**  
production of  
lubricants

**PRODUCTION  
CAPACITY:**  
3000 tons/month

**01**  
Park capacity:  
**1500 m<sup>3</sup>**

**02**  
Heated reactors:  
**40 m<sup>3</sup>**

**03**  
Pumping,  
compressor, and  
packing equipment

# TANK FARM:

The park of tanks with strapping has a **potential of more than 1000 tons of lubricants** with different switching methods

We can fill **48 containers** with one product or use **each tank for a separate product**

Fractional capacitive park in a **complete set technological equipment**

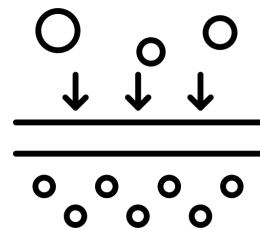

# REACTORS

Reactors with  
stirrer and heating:

4 pcs x 10 m<sup>3</sup>

## ADVANTAGES:

The working surfaces of tanks and reactors have a special coating that allows working with any aggressive chemical media

# LABORATORY

Product quality UG Lubricants is controlled by the laboratory of the plant, equipped with modern equipment.

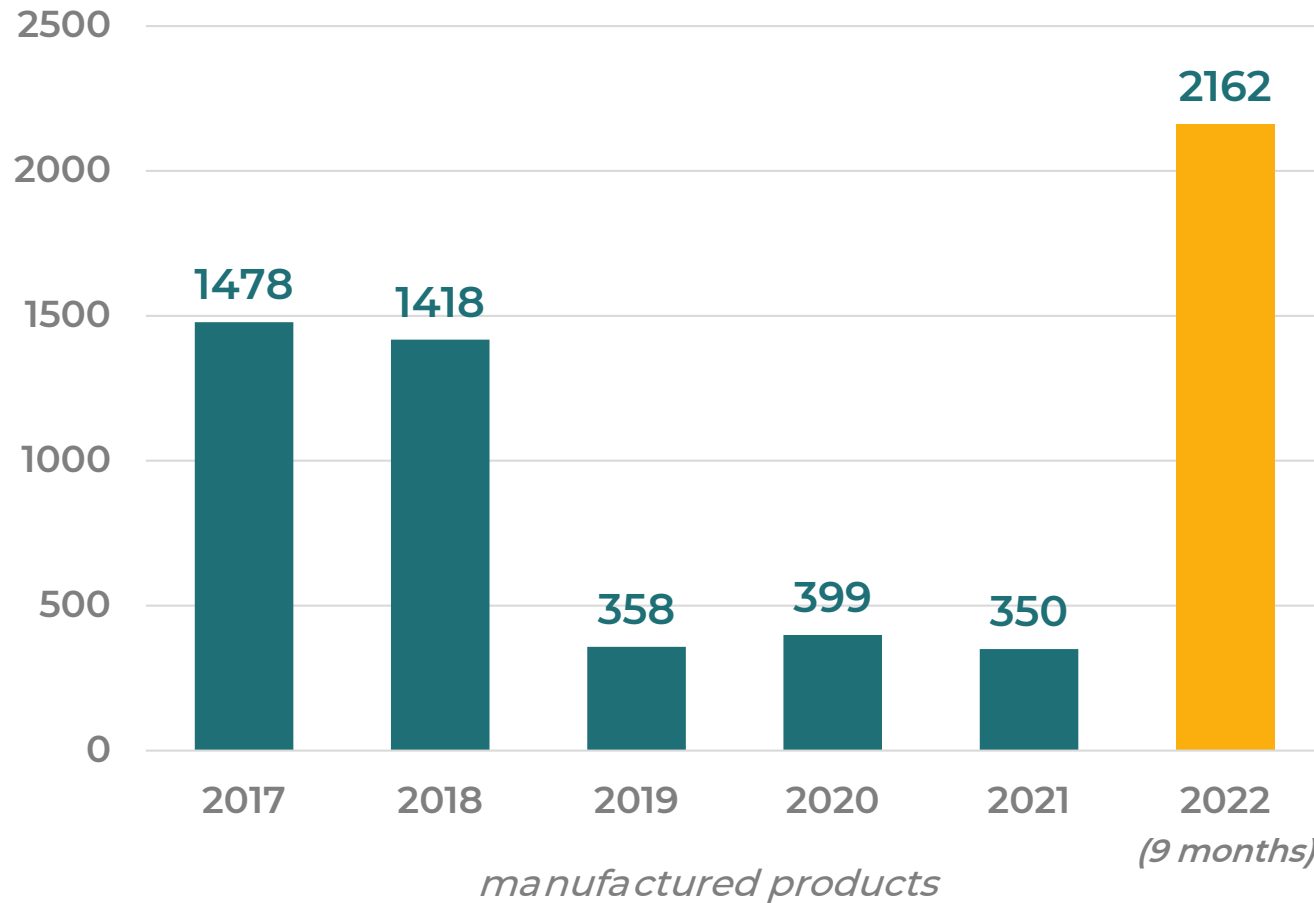

More than **100 testing methods** are carried out in the laboratory.
